Caso di Apelacion di “Ontneming” Ex-Minister Paul Croes den Corte

Diamars mainta dia 7 di November ‘23 lo tuma luga den sala di Corte e caso di “ontneming” (expropiacion) contra Ex Minister di Asuntonan Social y Labor drs. Paul F.T. Croes. Esaki ta e caso di apelacion unda tres Hues lo atende e caso for di Corsou caminda e caso aki ta trata un suma di Awg. 183.000,- cu Ministerio Publico ta existi e ex politico pa paga bek como multa.

Defensa di sr. Croes pa representa su persona den e caso aki, ta abogado mr. Desiree Croes cu lo muestra riba e hecho cu Paul Croes actualmente ta sintando un castigo di prizon di 3 aña y pa tal motibo ta dificil pa paga e suma aki bek na e momentonan aki.

E suma cu Ministerio Publico ta existi ta consisti di dos parti. Awg. 55.000 florin cu e politico lo a uza pa gastonan personal di su propio Stichting Leadership & Excellence. Durante e periodo 2011 pa 2017 cu e fundacion ta existi Croes lo a uza 55.000 florin, pa gastonan personal. E otro parti ta 128.000 florin cu Croes mester declara como entradanan legal ricibi durante e periodo di 2014 - 2017. Den corte di prome instancia huesnan a dicta cu e rapport financiero prepara pa defensa di Croes a wordo entrega laat, pa tal motibo no por a tuma e cifranan y prueba presenta.

E caso aki tambe lo nifica cu si Croes no paga Awg. 183.000 bek, e lo mester sinta un aña di prizon bek y esaki ta nifica cu banda di e castigo cu ya Croes ta sintando di 3 aña e lo mester sinta 1 aña mas si no paga e suma aki.

Ta spera cu Ministerio Publico y e abogado Croes lo trata na yega na un acuerdo pa por paga e suma bek. Por bisa cu compara cu casonan di varios politico cu a wordo persigui na Sint Maarten, Aruba y Curaçao e suma aki no ta esun di mas grandi.

Na Sint Maarten por ehempel Theo Heyliger a yega na un suma di “ontneming” di 5 milyon di dollar (Awg. 5.900.000) y cu Gerrit Shotte na Curaçao cu tabata 1 milyon di dollar (Awg. 1.800.000).

Diamars mainta e ‘regiezitting’ lo inicia unda abogado y OM lo presenta nan puntonan inicial.

Despues di intercambio cu multiple expert, a bay di acuerdo pa despues cu

cera Dump, pa solamente un periodo temporario di 2 aña por dera desperdicio na Ser’i Teishi y despues implementa sistemanan mas moderno y controla, cu menos molester y daño Ambiental pa e bisindario. Adem as e tipo di practicanan aki di dera desperdicio comprimi bao di suelo no ta permiti den otro paisnan pa motibo di e daño cu esaki ta causa na e subsuelo y contaminacion di e aire y medio ambiente. Na aña 2020 casi 2000 habitante di e barionan concerni a firma pa apoya e solucionnan proponi y un manifiesto a keda entrega na Gobierno. ANALISIS

Ministerio Publico no ta haci politica pero kier elimina algun politico

Ni kico bo haci of intenta pa haci, na momento di conta 1+1, esaki ta keda Sali 2 na final di cuenta y na momento di analisa e forma di procede di Ministerio Publico, e influencia di politica partidista ta keda bista y den un forma consistente y bistoso.

Mañan diamars Corte Superior lo trata e caso di “ontneming” contra di ex Minister Paul Croes, cu ya ta conoci a bira e prome “trofeo” grandi di Ministerio Publico, caminda a tuma pa casi ocho aña caba, ta persigui e ser humano aki den un forma nunca antes bisto. Pa un bon democracia, mester un bon sistema hudicial, mester un ‘trias-politica’ casi perfecto, casi completo ya cu no ta ser permiti pa tin ni e mas minimo duda con e institucionnan aki tin cu funciona pa sigura derecho sagrado di tur hende bibando den e pais aki como homber liber, homber cuida y proteha pa un sistema casi perfecto.

E no por ta perfecto ya cu realmente riba e mundo aki, nada perfecto ta realisabel pero tin cu traha segun un consenshi perfecto pa yega mas cerca di cu por ta pa husticia ta recto y husto pa un y tur sin excepcion.

Sinembargo desde cambio di gobernacion na 2017, Ministerio Publico a tuma un rumbo politico, of a ser maniobra den un ambiente politico cu no

tabata necesario y pa prome bes e institucion aki, a cay pa un sed di vengansa politico di algun politico cu sed pa kibra rivalnan politico. Sinembargo awe mas cu nunca ta bin sali na cla cu loke realmente nan a kibra y afecta den un forma horibel, ta famia di politiconan rival, nan yiunan chikito y grandi, kendenan a wordo marca pa resto di nan bida.

Di con e parti aki, ta pa bolbe mostra cu tin aspectonan den e caso di ‘ontneming’ di Paul Croes stipula pa mañan mainta cu ta lanta duda un biaha mas ya cu ta ser mostra cu e tin cu paga un suma di 55 mil florin, cu e lo a uza di su “Stichting Leadership & Excellence” durante e periodo di 2011 pa 2017. Na mes momento Paul tin cu paga un suma adicional di 128 mil florin cu Ministerio Publico a cataloga como entradanan ilegal cu despues a bira acusacion di labamento di placa pero caminda e politico su abogadonan a presenta pruebanan cu Corte den Prome Instancia no kier a acepta, ya cu a presenta esakinan “laat.”

Awor no ta mucho cla ainda di e suma di 55 mil florin di e stichting di Paul cu e tin cu paga bek, e placa aki ta bay pa e stichting bek, ya cu ta placa di e stichting aki of ta Ministerio Publico ta ricibi esaki, ya cu e ora tin algo cu no ta klop mucho eyan of miho bisa, e ta incomprendibel.

Aki ta bon pa mostra cu recientemente Corte den caso di ex Minister Plenipotenciario Guilfred Besaril, a confirma cu el a uza fondonan publico, placa di gobierno, placa di pueblo y no di un “stichting” di Besaril pero pa colmo nunca e caso aki a yega Corte ainda y ainda no a impone un decision contra Besaril pa e paga e suma aki.

E midimento aki cu dos midi ta asina visibel, mescos cu den caso di Parlamentario Benny Sevinger, kende no a ser haya culpabel di nada cu tin di haber cu su maneho como ex Minister di Infraestructura pero asina mes Corte a bay di acuerdo cu Ministerio Publico, pa pone Benny pa un periodo di cinco aña, cu no por participa den e proceso electoral of asumi un posicion publico. E maneho di Ministerio Publico pero tambe di e sistema hudicial den ultimo seis añanan, por ser compara c’un tipo di pagara bieu cu ningun hende sa ki rumbo nan ta bay y con nan lo kima ora di cende esakinan.

No tin coherencia ya cu mañan Corte Superior tin cu atende un caso di un stichting cu cual a logra di condena Paul Croes na cuater aña di prizon y politiconan cerca di a actual gobierno, ta ser permiti pa paga bek caminda e caso di Besaril ta confirma e hipocresia di e sistema hudicial, caminda pa motibo di a apela e decision di Gobierno pa retira su persona como funcionario publico, Corte a practicamente condena Besaril sin cu AINDA Ministerio Publico a presenta acusacion contra di su persona!!!!

Ya e ta di partidonan di gobierno, ya e ta otro y tur hende cu ta liga na gobiernonan di ultimo shete aña, ta ricibi un trato diferente for di e sistema hudicial, ya cu no por bisa otro!!!

Pader Jairo na Parlamentario Miguel Mansur

“Bo ta un persona cu a asumi un posicion c’un agenda stinki”

Pader Jairo den fin di siman, a pone un grabacion riba social media, den cual e ta reacciona riba Parlamentario pa fraccion di Accion21, Miguel Mansur, pa motibo cu e parlamentario aki a mete cu su persona. Pader Jairo a cuminsa pa muestra cu bida no ta stop di sorprende su persona mas y tampoco e cacho cu rabo, e demoño tampoco ta stop di sorprende su persona manera e ta haci su cosnan. Na su regreso for di Colombia caminda Pader Jairo a pasa algun dia den Convento Santo Domingo de Guzman caminda tabatin un congreso di Padernan predicado, el a wordo confronta cu algun reaccion caminda el tuma nota di un video di Parlamentario Mansur caminda a edita un video di Papa Francisco.

Un video edita caminda en berdad Pader Jairo ta muestra cu Papa Francisco a papia di inclusion, mustrand cu su Iglesia ta Mama y Maestro, un mama cu ta cuida yiu y ta siña yiu, loke kiermen cu Iglesia no ta pone ningun hende un banda pero el a muestra cu e parlamentario aki a hinca e video edita den su contexto mustrand cu Papa mes lo ta di acuerdo cu e tema di Mansur. Pader Jairo a sigui muestra cu e miembro di Parlamento aki ta pone e asunto di ‘spada cu spada’ den un contexto cu no ta cuadra, mustrand cu hamas y nunca, “nos Iglesia” ta bay pone un Pastoor di un pareha di hende homber.

“No, nos no ta den e cos ey di spada cu spada, nos tin ritonan di matrimonio cu ta Sacramento cual cada hende mes ta ofrece otro, ta mara na asina tanto cos, specialmente na diseño di Dios. Ami no tin nada contra di ningun hende, mi a un predicado di palabra di Dios y mi ta trata tur hende cu respet, cu bondad cu

caridad y hamas y nunca di mi banda, sea e hende cu su ideologia, cu su pensamiento, semper mi ta trata nan cu respet. Wak Mansur, bo ta un hende kende ta un mal perdedo, mi no sa kico mi pensa di bo, ya cu bo no ta mi amigo, mi no tin amistad cu bo, mi conoce bo famianan sigur di antes, pero cu bo mi tin amistad.

Awor diripiente bo ta hisa benta, pa bisa ami y mi colega Pader Curtis, cu nos ta gay y mi cu yama Pader Curtis pa puntra su persona si ta berdad, pasobra cu ta awe mi a haya sa cu mi ta gay, mi no tabata sa! Mi sa cu mi ta Pader mas cu 20 aña, dos aña den Ordo di Dominicanan, pero mi no tabata sa e pida ey pero bo a trece esaki dilanti, anto e actitud ey ta haci cu bo ta un mal perdedo.

Bo ta cuminsa purba demoralisa mi pero yama mi kico cu bo kier, yama mi gay, yama mi pedofiel, kico mas tin pa bo yama mi pero enfin ami sa kico mi ta! Awor mi sa di con bo ta yama mi gay ya cu mi no a core un paranda cu bo, ni spada cu spada, nada di e cosnan ey, mi no ta den e cosnan ey, pero si mi ta un hende cu ta trata tur hende, hasta esun cu ta gay, ta gosa di mi respet pasobra nan ta duna mi respet. Abo ta un hende cu a asumi un posicion c’un agenda stinki, pa bo bin cu bo plannan di matrimonio y tur eseynan pero mi a tende cu bo a bay studia na Merca of kico bo a bay haci na Merca, pasobra mi a tende tambe kico bo a bay haci eynan y mi no ta husga bo pa esey.

Pero bo a hisa benta, bo no ta inteligente y como representante di pueblo mi no ta haya ta bon idea cu bo mester t’ey, pasobra bo ta arogante y mi ta scucha reunionnan di Parlamento, bo ta hisa benta pasobra bo pensamiento, bo ideologia pero ruman, si bo ta gay, ta bo asunto. Si a priminti hendenan eyfo ta vota pa bo pa pone bo eynan, ya cu bo tin bo agenda, ta bo asunto pero ami personalmente no tin gana di mira bo mas den Parlamento, mi no kier bo representa ni ami y tampoco e pueblo aki, pasobra bo agenda ta stinki!

Awe ta matrimonio di homber cu homber, muhe cu muhe y despues lo bin pro abortus, despues pro pedofilia ya cu unabes bo habri un bentana, ya cu asina cosnan ta cuminsa, habriendo bentana pa cosnan scur y despues tur cos ta caba na aros con coco. Ami ta respeta tur hende, e hende como persona, e hende como yiu di Dios, e hende y mi tin amigonan cu ta gay pero abo Dios kier algo cu bo, y no kere cu e placa cu bo tin, si bo tin ainda anto, lo no yuda bo,” entre otro tabata e reaccion di Pader Jairo Maduro contra di expresionnan haci pa Parlamentario Miguel Mansur.

Eleccion na Colombia ta trece reto pa presidente Petro

Gustavo Petro, e prome presidente di Iskierda di historia di Colombia, a enfrenta 14 luna dificil desde su victoria electoral historico. Su ambicionnan proponi di reforma tabatin dificultad pa impone n'e Congreso y su gobierno a enfrenta un scandal di financiamiento di campaña. Mas recientemente el a sufri un importante golpi den e eleccionnan local y regional di Colombia, caminda cu e votadonan di e principal ciudadnan a faborece e criticonan di su administracion, specialmente di derecha y centro. Di e 32 departamentonan di Colombia, su coalicion Pacto Historico solamente a obtene gobernacion den dos.

Den un principio, Petro a purba di interpreta e resultadonan di e eleccion como un victoria di su gobierno, sugeriendo cu hopi di e candidatonan ganado tabata forma parti di e coalicion cu a hib'e na poder. Sinembargo, e expertonan ta kere cu e movimiento politico di Petro, impulsa pa su personalidad, y n'e falta di un estructura di partido fuerte a contribui n'e desafionan electoral. Sandra Borda, analista politico y profesor di e Universidad de los Andes, a haci referencia den e caracter personalista di e coalicion di Petro, cu por trece dificultad continuo den e eleccionnan futuro.

Un di e derotanan pa significativo di Petro a tuma luga na Bogota, caminda cu su aliado Gustavo Bolivar a presenta como candidato di e alcaldia. Bolivar, un conocido skirbido di script di telenovela y exsenador, a caba na di tres den e careda, tras di un candidato independiente y di un aspirante di Partido del Nuevo Liberalismo. Mientras cu Petro a ricibi dos milyon di voto na Bogota durante e eleccionnan presidencial di un año pasa. Bolivar solamente a haya 570 mil voto den e careda p'e alcaldia. Bolivar a atribui e caida aki n'e frustracion di e votadonan cu e resultado di e prome año di Petro, afirmando cu hopi hende tabatin expectativa poco realista riba un cambio inmediato.

E año inaugural di Petro tabata testigo di algun logro, manera e aprobacion di un proyecto di ley di reforma fiscal y un plan nacional di desaroyo destina na combati pobreza. Sinembargo su manehonan emblematico, manera e iniciativa "Paz Total," a wordo polarisa, ya cu e criticonan ta sostene cu e problemanan di

siguridad a empeora den algun region. Fuera di esey, su decision di caba cu e subsidio na gasolin a provoca un aumento di e prijs di combustibel y acusacion di ta antiempresarial.

E instabilidad dentro di e coalicion di Petro a keda patent ora cu el a dispidi di casi un tercio di su gabinete na april y a disolve su coalicion na Congreso debi n'e oposicion na su reformanan sanitario. Na juli, su yiu homber Nicolas Petro a wordo deteni p'e acusacion di labamento di placa relaciona cu e campaña presidencia di su tata.

E popularidad di Petro a baha significativamente y un encuesta realisa na october a indica cu su indice di aprobacion a cay te cu 32%, compara cu 60% cu el a alcanza ora cu el a asumi e funcion. E reciente eleccionnan regional ta sirbi di yamada di accion p'e gobierno di Petro. Mientras cu algun di su aliadonan ta interpreta e resultadonan como un victoria di e elitenan tradicional of di e corrupcion, Sergio Guzman, di e Colombia Risk Analysis, ta kere cu ta refleha un reaccion mas amplio contra e maneho di Petro. E resultadonan di e eleccion probablemente lo anima e criticonan di Petro y n'e partidonan tradicional pa reta su gobierno ainda mas. Pa aproba e reformanan, ta posibel cu e gobierno di Petro tin cu haci mas concesion y e caminda padilanti ta bira mas dificil.

A pesar di e contratiemponan aki, Gustavo Bolivar ta sigui ta optimista riba e futuro di Petro, ya cu e presidente ainda ta keda tres año di mandato. Cu un gran presupuesto procedente di e reformanan fiscal, Bolivar ta kere cu e inversionnan significativo den educacion y agricultura lo recupera e confiansa di e votadonan.

Concluyendo, Petro ta enfrenta e retonan cada biaha mayor pa mantene su sosten politico y cumpli cu su programa ambicioso di reforma.

Bin bishita nos y probecha!
Paña di bon calidad na bon prijs.

Eman a realiza e cooperacion aki cu Cornelissen prome cu e tabata Prome Minister, den e tempo cu tabata prepara plannan di partido pa Aruba.

Awe Bertus Cornelissen ta Wethouder na Putten pa e partido Christen Unie, encarga cu e cartera “Ruimtelijke ordening bebouwde kom, Volkshuisvesting en wonen, Duurzaamheid, Landschap en water”. For di planoloog den servicio di Ruimtelijke Ordening den administracion na Hulanda awe e mes ta un gobernante cu especificamente e carteranan aki.

E dos politiconan, Statenlid Eman y Wethouder Cornelissen a bolbe haya e oportunidad di topa otro durante e mision di e delegacion di AVP na Den Haag. Eric Ras(Curpa):

Legalisa matrimonio di mesun sexo ta bay contra leynan di Dios

Partido Curpa ta felicita pueblo cu a sali manifesta y para pa e famia cu Dios a institui. Minister Arends den nomber di gobierno a tuma e manifesto. Nos por a mira claramente cu por fin gobierno a demostra ken nan ta. For di e discurso cu nos minister president a hiba na Den Haag a muestra su cara berdadero. Pa hopi tempo gobierno a bira y manipula. Esaki no ta di awor sino for di 8 di September 2016 gobierno tras di gobierno a demostra den ki direccion nan ta bayendo. Porfin pueblo por mira ken e lo bonan aki ta.

Cada accion tin su consecuencia. Partido MEP, partido RAIZ y tambe partido AVP ta di acuerdo cu e matrimonio di mesun sexo. Den pasado partidonan manera Democracia real, partido por y red democratico cu tambe tabata na favor di matrimonio di mesun sexo no t'ey mas. Partido AVP cu a bandona su ideologia Cristian y keto bay no kier arepentí, lo bay wordo confronta cu e realidad di durante e proximo eleccion no lo bay dilanti. Despues di a habri porta pa geregistreerd partnerschap y awor kier sigui cu matrimonio di mesun sexo. Esaki lo no para akinan paso despues di matrimonio di mesun sexo lo sigui pa legalisa pedofil tambe.

E agenda pa legalisa matrimonio di mesun sexo tabata desconoci pa hopi aña. E tabata scondi den e agenda 21 cu a bira agenda 2030. Awor mas cu nunca nos por mira gobiernonan rond mundo cu ta forma parti di e agenda

2030 ta pusha pa ehecuta e 17 puntonan pa asina pueblo kita bo libertad y kita bo privacidad. Esaki ta e agenda globalista cu lo controla tur cos paso hasta cuminda y awa lo wordo controla. Pueblo mester come carni artificial. P'esey mes nos prome minister a firma cu CommonTrust Network di World Economic Forum paso e prome stap ta kibra economia di pais Aruba y haci tur hende esclavo di debe. E lema lo bo no tin nada y lo bo ta feliz.

E metanan Sustainable Development Goals ta: Reduci e cantidad di habitante na mundo p'esey nos por mira con ta maltrata nos grandinan, kita bo libertad y esaki ta inclui e libertad di prensa y kita bo privacidad y tambe caba cu comercio. Pakico nan ta sponsor e grupo di LGBTQIA+ number ta crea division (dividi y konkista) y di 2 ta cu nan no por produci kieren ta contribui pa baha e poblacion mundial.

Ora un gobierno ta bay contra leynan di Dios y bay contra di e matrimonio cu Dios a crea ta bay tin problema. Nos ta kere cu Dios ta para cu zweep den su man pa cuminsa suta y kibra tur cos cu ta bay contra di su principianan. Asina tambe habitantenan di Babel a kere di por bay contra Dios. Nos por a lesa kico a pasa cu e toren di Babel. Cocolishi tambe ta un replica di e toren di Babel. Esaki ta un consecuencia tambe pa hopi hende cu aña tras di aña a kere den partidonan politico cu bou di engaño y manipulacion ta drenta gobierno.

A yega tempo pa e toren bin abao. Banconan mundial lo cuminsa cay den otro. Pronto no lo tende di dje. Esaki ta e tempo pa scoge pa Dios of scoge pa e malo. Cada ken ta liber ta scoge nan caminda y na final e consecuncianan nos tin cu biba cu ne. Partido Curpa a lanta netamente pa lucha contra di locual cu ta biba awe p'esey mes partido Curpa ta e unico alternativa.

Michael Kuipéri – Participante y Lider den Deportes

MICHAEL Kuipéri a haya hopi elogio ultimamente como baluarte den turismo di Aruba. Michael a merece tur, y mas ainda! Michael no tabata un baluarte solamente den turismo. Cu e articulo aki mi kier enfoca riba Michael Kuipéri como deportista y como lider, un baluarte den deportes di Aruba.

Na aña 1950 cu a forma ABBA – Amateur Baseball Bond Aruba – **hopi** **prome** cu **Michael** a bira **director di Aruba Toeristen Bureau** (cu despues a bira **Aruba Tourism Authorit - ATA**) - el a wordo nombra den directiva di e entidad deportivo. September 3, 1952, e dia cu e ekipo di baseball nacional di Aruba a aborda e avion di Pan American Airlines pa bay tuma parti den e XIII Serie Mundial di Baseball Amateur, Michael Kuipéri tabata participante den un evento historico. Tabata e prome bes cu nos isla a participa den un evento deportivo na nivel mundial. Mas leu por lesa di otro eventonan deportivo notabel y historico den cual Michael a participa.

Fortaleza pa Famia

Kico lo pasa ora nos rechasa e bondad di Dios

SI tabatin un tempo den cual cabesura di hende ta wordo demostra ta awor, ta berdad locual Bijbel ta skirbi cu den e ultimo temponan hende lo no kier scucha e berdad mas, pero ta bay tras di fabula.

Locual ta malo nan ta mire pa bon, y locual ta bondad ta wordo conta como maldad.

Juan 3:16 ta splica e gran bondad di Dios den cual E a manda su Yiu unigenito pa ken cu kere den dj'E no bay perdi ma haya bida eterna. Esey ta nifica cu Dios ta stima nos y kier pa nos tin bida eterna.

Mateo 11:28 ta para skirbi: Bin cerca Mi tur cu ta cansa y carga y Mi lo duna boso sosiego, esey ta nifica cu tur hende tin mesun drechi di yega cerca Cristo Hesus. No tin asunto di discriminacion ni tampoco rechazo.

1 Juan 1:9 Señor ta bisa: Si nos confesa nos pica E ta fiel y husto di pordona nos nos pica y libra nos di tur inhusticia. Tur hende cu haci pica por haya pordon di pica cerca Dios.

Pero tambe Señor ta splica bon cla den Juan 3:36 bisando na nos tur sin excepcion di ningun hende: Esun cu kere den e Yiu tin bida eterno, ma esun cu no obedece e Yiu lo no mira bida, ma e furia di Dios ta keda riba dje.

Pasobra nos tur ta mira locual ta pasando: E reynan di mundo ta tuma nan posicion, y e gobernantenan ta consulta hunto contra Señor (Salmo 2:2).

Pero Señor ta spierta cada un di nos individualmente: Ma pa motibo di bo capricho y bo curason cu no kier arepenti, bo ta montona furia pa bo mes, den e dia di furia y revelacion di e huicio husto di Dios (Romanonan 2:5).

Pasobra den caso di esnan cu un tempo a wordo ilumina y cu a purba e don celestial y cu a bira participante di Spirito Santo, y cu a purba e bon di e palabra di Dios y e podernan di e siglo cu ta bin.

Y, despues a cay ta imposibel pa trece nan bek na repentimento, como cu nan a bolbe crucifica e Yiu di Dios, pa nan mes y ta pon'E na berguensa publico (Hebreonan 6: 4-6).

Pasobra si nos sigui peca boluntariamente despues di a ricibi e conocimiento di e berdad, no ta keda sacrificio pa pica mas. Sino un cierto expectativa teribel di huicio y e furia di un candela cu ta caba cu e adversarionan (Hebreonan 10:26).

Awor Dios ta bolbe muestra su bondad na nos bisando: Esun cu no a spaar ni Su mes Yiu, ma a entregue pa nos tur, lo E lo no duna nos tur, tur cos tambe hunto cun'E (Romanonan 8:32).

Ma Dios a demostra Su amor pa cu nos den esaki, cu tempo nos tabata pecador ainda, Cristo Hesus a muri pa nos (Romanonan 5 :8).

Awor mescos cu e palabra di Dios ta bisa nos pa persevera haciendo bon, e bos di scuridad cual ta e diabel ta haci tur locual ta posibel pa gaña hende pa nan no biba segun e palabra di Dios, anto e asunto aki ta bira cada dia mas serio, pasobra no solamente hende ta perdiendo e deseo di sirbi Dios, pero hasta awor nan kier pusha nos muchanan tambe den mes un caminda.

P'esey nos ta roga na Dios, pa tur plan pa kita muchanan for di e caminda Dios, wordo descubri y cancela.

A SERENE SANCTUARY:

ALTO VISTA CHAPEL NOW SHINES WITH SOLAR PANELS

A Serene Sanctuary: Alto Vista Chapel Now Shines with Solar Panels

THE Alto Vista Chapel in Aruba has recently undergone a beautiful upgrade with the installation of a solar panel system with battery storage, allowing this famous chapel to shine at night in a warm and welcoming light.

The renowned Alto Vista Chapel was built in 1952, but the location has a much longer history: it was once the site of Aruba's first church. The chapel holds significant historical and cultural value for the island and is perched on a hilltop overlooking the North Coast. The chapel is a tangible testament to Aruba's rich Catholic heritage. Today, the chapel is not only a cherished landmark but also a beloved destination for countless tourists. Surrounded by the serene beauty of cacti and breathtaking panoramic views of the coastline, it offers a peaceful sanctuary for both locals and visitors.

Michael Geerman, Project Leader for the St. Anna Parish, under which the Alto Vista Chapel falls, recently teamed up with Mister Green to implement the addition of solar panels to the chapel. *"On behalf of the Priest and the Parish, we are very pleased with Mister Green/PowerHouse, and we are proud of this project,"* said Michael Geerman. This new installation is a milestone for the chapel, located in a remote area where establishing an electricity connection would be costly and time-consuming. The solar panel installation with battery storage proved to be the perfect solution to power the Alto Vista Chapel.

This small sanctuary is often illuminated by a sea of candles,

contributing to the atmospheric ambiance. Thanks to the new lighting, visitors can now more easily enjoy the chapel in the evenings. The Alto Vista Chapel warmly invites everyone, whether religious or not, to experience the serene atmosphere and attend the weekly services.

"It is an honor that the St. Anna Parish has chosen our company, and we look back with great pleasure on this unique project," said Coen van Daal, founder of Mister Green. The addition of solar panels to the Alto Vista Chapel marks a significant step in the preservation of this historic sanctuary and enhances the visitor experience. The chapel's light will now attract even more people and continue to be a symbol of Aruba's rich history and spiritual significance.

For more information and visiting opportunities, you can contact the office of the St. Anna Parish, to which the Alto Vista Chapel belongs, at +297 587 1409

Community Advocates Raise Concerns Over Waste Disposal and Air Quality in Aruba Neighborhoods

RESIDENTS of the Mahuma, Buena Vista, Parkietenbos, and Simeon Antonio neighborhoods have reached out to the Stichting Parkietenbos foundation to voice their concerns about persistent air pollution and possible toxic gas emissions affecting their communities. Particularly during months when the wind patterns change, these families report experiencing the adverse effects of three areas: Ser'i Teishi, Barcadera, and the Parkietenbos Dump.

Residents are urging the government to remember its commitment to not only closing the Parkietenbos Dump but also halting waste disposal at Ser'i Teishi. In a manifesto delivered to the authorities, they stressed the need for modern waste processing systems that minimize disruptions to residents and safeguard the essential quality of the air, vital for maintaining good health.

Over the past three months, air pollution has intensified, causing residents to wake up early in the morning due to noxious fumes. The Stichting Parkietenbos foundation has sent two letters to Minister Ursell Arends, but after four months, they have not received a response or acknowledgment. Consequently, they have decided to send a letter to Prime Minister Mrs. Evelyn Wever Croes, urging her to declare the situation a crisis and involve the Crisis Management Office in addressing the issue.

Stichting Parkietenbos wishes to inform residents of the neighborhoods and the wider Aruban community that, during the first Wever Croes administration, the founda-

tion's members participated in a series of crucial meetings with all stakeholders, including DNM, DVG, WEB, and TNO. The purpose of these meetings was to plan how to resolve the waste management problem on Aruba. After consulting various experts, an agreement was reached to temporarily use Ser'i Teishi as a waste disposal site for two years after closing the Parkietenbos Dump.

Subsequently, modern and controlled waste management systems, causing less disruption and environmental damage to the neighborhood, would be implemented. Such practices of waste disposal, involving waste compression beneath the ground, are not allowed in other countries due to the damage they cause to the subsurface and air and environmental pollution.

In 2020, nearly 2,000 residents of the concerned neighborhoods signed their support for the proposed solutions, and a manifesto was delivered to the government. However, despite the closure of the Parkietenbos Dump, pollution has become more frequent and originates from various directions, while the concerned Minister remains unresponsive.

Residents are understandably deeply worried and do not want to witness a repeat of the Parkietenbos Dump scenario in Ser'i Teishi or any other neighborhood. Many families have one or more members who have fallen ill or passed away due to the contaminated air affecting these areas for years. Access to clean air is a proclaimed human right by the United Nations.

Storm Ciarán Causes Fatalities and Injuries as it Ravages Dutch Coast with Strong Winds

STORM Ciarán has wreaked havoc on the Dutch coast with wind speeds of at least 104 kph, resulting in one fatality and several injuries caused by falling trees. In Venray, Limburg, one person tragically lost their life when a tree fell on them, hampering emergency services' access to the scene due to the ongoing risk of more trees toppling.

Additional incidents occurred in Limburg, where two individuals were injured when a tree struck their car on the A79 near Meerssen, and in The Hague, where a woman was hit by a tree while crossing a road at a zebra crossing. In Apeldoorn, another woman on her bicycle was also hit by a falling tree, with the extent of her injuries undisclosed by the police.

A tree collision with four cars on the N65 near Berkel-Enschot led to chaos, leaving the vehicles significantly

damaged. Fortunately, most of the six passengers sustained only minor injuries.

Weather forecasters had previously warned of trees being susceptible to uprooting in the strong winds, given that it's late autumn and leaves are still on the branches.

KLM was forced to cancel hundreds of flights, and some schools in Noord and Zuid-Holland in coastal areas temporarily closed. Train services, however, remained relatively unaffected, according to railway company NS.

Ciarán marks the fourth official storm in the Netherlands this year and the second this autumn. Notably, the national "cycling against the wind" championships had to be canceled due to the event's location on the Oosterscheldekering sluice in Zeeland, where the wind's strength was deemed too perilous.

Elections in Colombia Signal Challenges for President Petro

GUSTAVO Petro, Colombia's first-ever leftist president, has faced a challenging 14 months since his historic election win. His ambitious reform proposals have struggled to gain traction in Congress, and his administration confronted a campaign finance scandal. More recently, he suffered a significant setback in Colombia's local and regional elections, where voters in major cities favored critics of his administration, particularly from the right and center. Out of Colombia's 32 departments, his coalition Pacto Historico secured governorships in just two.

Petro initially attempted to spin the election results as a victory for his administration by suggesting that many winning candidates were part of the coalition that brought him to power. However, experts believe that Petro's personality-driven political movement and lack of a strong party structure have contributed to these electoral challenges. Sandra Borda, a political analyst and professor at the University of the Andes, emphasized the personalistic nature of Petro's coalition, which could lead to continued difficulties in future elections.

One of Petro's most significant defeats occurred in Bogota, where his ally Gustavo Bolivar ran for mayor. Bolivar, a well-known writer of soap operas and a former senator, finished third in the race, behind an independent candidate and a contender from the New Liberalism Party. While Petro received two million votes in Bogota during the presidential election a year ago, Bolivar garnered only about 570,000 votes in the mayoral race. Bolivar attributed this decline to voters' frustration with

Petro's first-year results, stating that many people had unrealistic expectations about immediate change.

Petro's inaugural year did witness some achievements, including the successful passage of a tax reform bill and a national development plan aimed at addressing poverty. However, his flagship policies, like the "Total Peace" initiative, have been polarizing, as critics argue that security issues have worsened in some regions. Additionally, his decision to end gasoline subsidies led to higher gas prices and accusations of being anti-business.

Instability within Petro's coalition was evident when he fired almost a third of his cabinet in April and dissolved his congressional coalition due to opposition to his healthcare reforms. In July, his son Nicolas Petro was arrested on money-laundering charges connected to his father's presidential campaign.

Petro's popularity has declined significantly, with a poll in October indicating his approval rating fell to 32 percent,

down from a high of 60 percent when he assumed office.

The recent regional elections serve as a wake-up call for Petro's government. While some of his allies interpret the results as a victory for traditional elites or corruption, Sergio Guzman of Colombia Risk Analysis believes it reflects the broader backlash against Petro's policies.

The election outcomes will likely embolden Petro's critics and traditional parties to challenge his government further. To pass reforms, Petro's government may need to make more concessions, and the path ahead becomes more challenging.

Despite these setbacks, Gustavo Bolivar remains optimistic about Petro's future, as the president still has three years left in office. With a large budget from tax reforms, Bolivar believes significant investments in education and agriculture will win back voter trust.

In conclusion, Petro faces growing challenges in maintaining his political support and achieving his ambitious reform agenda.

Nairobi, Kenya to Host IEA's 9th Annual Global Conference on Energy Efficiency in 2024

THE International Energy Agency (IEA) and Kenya's Minister of Energy and Petroleum, Davis Chirchir, have officially confirmed their plans to host the 9th Annual Global Conference on Energy Efficiency in Nairobi, Kenya. This high-profile event, scheduled for May 21 to May 23, 2024, serves as a forum for prominent leaders, including ministers and CEOs, to delve into the potential of international collaboration and intensified efforts in energy efficiency to generate tangible real-world advancements.

The previous iteration of the conference took place in Versailles, France, in June of this year and drew more than 600 delegates from 90 countries. A notable outcome of this event was the issuance of the Versailles Statement, signifying the commitment of 46 governments to support the goal of doubling global energy efficiency progress by 2030. The upcoming 9th Global Conference is a joint initiative between the IEA and the Government of Kenya and will offer leaders a platform for dialogues regarding the policies and actions needed to address the ongoing challenges posed by the global energy crisis. Notably, this conference marks the first time it will be held in Africa and contributes to the growing momentum for enhanced energy efficiency efforts in anticipation of the COP28 Climate Change Conference in Dubai.

Dr. Fatih Birol, the Executive Director of the IEA, expressed his excitement about Nairobi being chosen as the host for the next Annual Global Conference on Energy Efficiency. He underscored the significance of energy efficiency as the primary driver of the energy transition, playing a pivotal role in job creation, industrial growth, enhancing energy security, and delivering affordable,

modern energy services, especially in emerging and developing economies. Dr. Birol stressed the urgency of amplifying investments in Africa to ensure a just and people-centric energy transition on the continent.

In September, the Kenyan Government hosted the inaugural Africa Climate Summit in Nairobi, during which Dr. Birol called for a “New Energy Pact for Africa,” urging the international community to provide support to African nations in tackling energy access challenges across the continent.

Minister Davis Chirchir expressed his delight in welcoming the world to Nairobi for this significant event, highlighting the role of energy efficiency in

improving affordability, accessibility, and socio-economic development, particularly in developing countries. Preceding the global conference, the IEA will conduct its second Energy Efficiency Policy Training Week for Africa in Nairobi in March 2024. This training week aims to enhance the capabilities of the next generation of policymakers in the region, further promoting energy efficiency and sustainability in Africa and beyond.

The 9th Annual Global Conference on Energy Efficiency promises to be a substantial event in the global effort to address the energy challenges of our time, fostering collaboration, innovation, and the exchange of knowledge and ideas among international leaders and experts.

Stone Collapse in Guatapé's El Peñol Leaves 17 Injured

ON November 2, 2023, a significant incident occurred at the iconic Peñón de Guatapé, resulting in the collapse of part of the rock formation and leaving around 17 people injured, including a minor. The incident was triggered by heavy rains, raising safety concerns.

The dramatic scene unfolded as large rocks fell from the 220-meter-tall monolith, which is one of Antioquia's main attractions. Witnesses described moments of panic as they heard a deafening noise followed by the rockfall.

Emergency response teams swiftly attended to the injured. Nine of them were transported to hospitals in Guatapé and El Peñol for medical evaluation, while the remaining six received preliminary on-site care.

Tragically, two individuals, identified as Juan Manuel Pimiento Otero (41 years) and Ana Yorley Quiroga (36 years), lost their lives. Mayor Hernán Darío Urrea of Guatapé reported that four of the critically injured individuals were transferred to Medellín for further treatment.

Authorities, along with the regional risk management entity

Dagran, have been assessing the situation and collaborating with local agencies to evaluate the damages and implement necessary measures.

The Peñón de Guatapé, also known as “La piedra del Peñol,” is a natural wonder—a 220-meter monolith located between the municipalities of Guatapé and El Peñol. It features 702 steps leading to the summit and offers panoramic views of a reservoir spanning over 2,200 hectares, dotted with tranquil waters and lush green islands.

This picturesque location provides a glimpse into the area's history, as an emerging cross from the water symbolizes the former location of a submerged village. Visitors can explore a wide variety of regional crafts and traditional sweets as part of their experience.

The incident, while tragic, serves as a reminder of the need for vigilance and safety precautions in the face of natural hazards, especially in locations with significant tourist activity. Authorities continue to monitor the situation and provide assistance to those affected.

Will Smith Makes MLB History

Three Consecutive World Series Rings Across Different Teams

TEXAS Rangers' left-handed reliever Will Smith has achieved a historic feat, becoming the first player in MLB history and all of the major North American sports leagues to win three consecutive World Series rings with three different teams. This remarkable accomplishment sets him apart in the world of sports.

Smith, 34 years old, began his career with the Kansas City Royals, Milwaukee Brewers, and San Francisco Giants. While he left the Royals two years before their 2015 championship and joined the Giants two years after their 2014 title, he found championship success with the Atlanta Braves in 2021.

In his stint with the Braves, Smith served as the closer during the 2021 season and delivered an outstanding post-season performance, not allowing a single run in 11 appearances. However, his journey continued with different teams, including a short stint with the Houston Astros in the 2022 season, where he was used primarily in the regular season.

In the 2023 season, Smith signed with the Texas Rangers, making an impact during the postseason despite a somewhat challenging regular season performance. The Rangers ultimately won the World Series, securing Smith's third consecutive championship ring with three different franchises.

Smith's accomplishment highlights the unpredictable and remarkable nature of baseball. Despite his recent performance not

reaching previous heights, his unique place in sports history adds intrigue to his prospects in the league.

In addition to Smith's historic achievement, the Rangers' World Series win came with several other notable statistical oddities. They had a remarkable 11 consecutive road game wins, the longest such streak in postseason history, and achieved various records and milestones during their championship run.

While the Rangers had a lackluster previous-year record, their remarkable journey to becoming World Series champions serves as an inspiration to baseball fans and a reminder that anything is possible in this unpredictable sport. This victory adds their franchise to the list of World Series champions, leaving a few MLB teams still in pursuit of their first championship, including the Seattle Mariners, San Diego Padres, Tampa Bay Rays, Milwaukee Brewers, and Colorado Rockies.

Lionel Messi and Luis Suarez Set for Reunion at Inter Miami

AN exciting development, soccer legends Lionel Messi and Luis Suarez are reuniting at Inter Miami, sparking enthusiasm among fans. This reunion marks a remarkable twist in their careers since departing from Barcelona in 2020. Their departure from the club was accompanied by controversy, with Messi publicly supporting Suarez during their messy

exit.

Since their parting, Suarez has embarked on a journey, playing for clubs like Atlético Madrid, Nacional, and Grêmio. In the current season, he made significant contributions to Grêmio, recording 10 goals and 10 assists, both of which were team highs, in 26 appearances.

Inter Miami experienced a surge in attention following Messi's arrival, becoming one of the most-followed teams in MLS in years. Despite a remarkable start with a Leagues Cup title win, Messi's participation slowed down due to a six-game winless streak in the MLS regular season, partly due to an unclear injury situation. However, he still managed to accept the prestigious Ballon d'Or during this period, further solidifying his status as one of the world's top players.

Fans are eagerly anticipating the reunion of these two soccer icons at Inter Miami, with hopes of witnessing their extraordinary talents and chemistry on the pitch once again.

Formula 1 in Talks to Revamp Sprint Format for 2024 Season

FORMULA 1 is actively engaging with teams to consider a substantial overhaul of its sprint race format for the 2024 season. The proposed changes aim to improve the continuity and clarity of the race weekend schedule, addressing concerns raised by both fans and teams.

In the current format, sprint races were introduced with a standalone qualifying session held on the same day. This disrupted the flow of the weekend and led to cars being under parc ferme rules from Friday's practice session onwards.

Following feedback and discussions, Formula 1 is exploring options for 2024. One potential change is to return the traditional Saturday afternoon slot for grand prix qualifying, with the sprint race held on Saturday morning. To achieve this, the sprint shootout that determines the sprint race grid could be moved to Friday afternoon after a single free practice session.

This shift would allow teams to reopen parc ferme after the Saturday morning sprint, giving them more flexibility to make setup changes before the grand prix qualifying session.

Mercedes team boss Toto Wolff and other key figures in Formula 1 expressed support for these proposed changes, emphasizing that it would lead to less confusion for fans and easier scheduling.

However, it is crucial to ensure there is sufficient time for teams to react between the Saturday morning sprint race and the following grand prix qualifying session. The ultimate goal is to create a more straightforward and exciting format while enhancing the overall experience for fans and teams. The final format will be decided by Formula 1 and FIA in collaboration with the teams to ensure it meets the needs of all stakeholders.

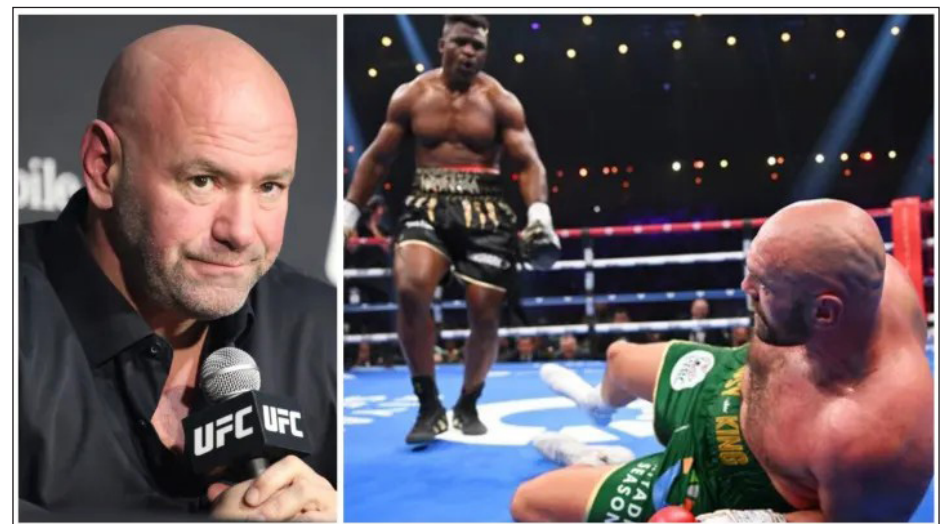

Dana White Reacts to Francis Ngannou's Boxing Debut vs. Tyson Fury

UFC president Dana White expressed amazement at Francis Ngannou's performance in his boxing debut against Tyson Fury, where he managed to last all 10 rounds and even dropped Fury before a controversial decision loss in Saudi Arabia. The fight did not put Fury's WBC heavyweight title on the line and marked Ngannou's first boxing match since January 2022.

In January 2022, Ngannou defended the UFC heavyweight title against Ciryl Gane but had to undergo surgery and later chose to leave the MMA promotion, leading to criticism from White for not re-signing with the UFC. However, Ngannou secured a massive payday by facing the British boxer Fury.

While White admitted that he didn't watch the fight, he still found it incredible that Ngannou went the distance with Fury, comparing it to other MMA fighters' forays into boxing, such as Conor McGregor who lasted 10 rounds against Floyd Mayweather.

Ngannou signed with the Professional Fighters League (PFL), a rival promotion of the UFC, this spring, and as part of the deal, he was permitted to box before his PFL debut

in 2024. The specifics of Ngannou's future opponents in the PFL remain uncertain, but there have been talks about a potential boxing match with former world champion Deontay Wilder, as well as discussions promoted by Eddie Hearn about a fight against British boxer Anthony Joshua.

Overall, Ngannou's remarkable performance in his boxing debut has generated significant interest in the combat sports world, with various possibilities for his future fights in both MMA and boxing.

India's Economic Revival:

Challenging China's Stumble in the Global Arena

INDIA'S economy, often compared to an elephant for its slow start and powerful presence, is gaining momentum in the global economic landscape. While the world has faced numerous crises, India has transitioned from a lumbering gait to a steady trot. In 2023, India made a strong impression at the World Economic Forum and hosted the G20 leaders' summit for the first time, leading to remarkable growth in its stock market.

This positive outlook for India coincides with China, the longtime engine of global growth, experiencing a significant economic slowdown. India is emerging as a potential successor to China, boasting a youthful population and thriving industries.

To surpass China as the largest contributor to global growth in the coming years, India needs to achieve a sustained growth rate of 8%, according to Barclays analysts. While the IMF projects India's growth at 6.3% for the year, China has set an official growth target of around 5%, facing challenges like weak consumer spending and a property crisis.

India's government, led by Prime Minister Narendra Modi, is actively working towards making the country a \$5 trillion economy by 2025. The government is investing heavily in infrastructure development, such as roads, ports, airports, and railways, with \$120 billion allocated for capital spending in a single year. This infrastructure transformation is evident through extensive construction projects across the nation.

Digital transformation has also played a pivotal role in India's economic growth. The country has developed digital platforms like Aadhaar and the Unified Payments Interface, reducing friction in doing business and curbing corruption. These platforms have increased financial inclusion and facilitated the flow of millions of dollars into the formal economy.

Indian companies, including major conglomerates like Reliance Industries and the Adani Group, are investing in 5G and clean energy, aligning with the changing global supply chain dynamics as companies seek to diversify away from China.

However, while India's economic prospects are promising, it faces challenges. The government's bureaucracy and unpredictability have raised concerns among investors. Events like the sudden demonetization in 2016 have had long-term repercussions. Moreover, India lags behind China in terms of investment and consumption. China accounts for around 30% of global investment, while India's share is less than 5%.

India's economic resurgence is evident, and it is poised for significant growth. However, it still has a long way to go to catch up with China's economic might.

While India's impact on the world economy is substantial, it may not be sufficient to shield the global economy if China faces a severe economic downturn.

Eurozone Unemployment Rises Unexpectedly to 6.5% Amidst Stagnating Economy

UNEMPLOYMENT in the Eurozone has taken an unexpected turn, rising to 6.5%, marking a departure from its record low. The uptick in joblessness, amounting to 69,000 people in September, can be attributed to a combination of high-interest rates and a stagnant economy that has begun to affect the job market across the Eurozone's 20 member countries.

The European Central Bank (ECB), which recently halted its series of interest rate hikes, is closely monitoring these developments, particularly about wage growth, a significant driver of recent inflationary pressures. ECB board member Isabel Schnabel voiced concern about the softening labor market before the latest data was released, emphasizing the potential challenges this poses to the projected decline in core inflation if labor market tightness persists.

Economists had previously anticipated that unemployment would remain at the record low of 6.4% based on a Reuters poll. However, the unexpected increase in September's joblessness signals the start of a decline in the Eurozone's job market, following years of steady recovery.

The ECB's projections suggest that Eurozone unemployment could reach 6.7% next year, driven by sluggish growth that may force employers to reduce their workforce.

Claus Vistesen, an economist at Pantheon Macroeconomics, predicts that Eurozone unemployment will continue to rise over the next few months. This projection is based on a faltering GDP and surveys indicating that firms, particularly in manufacturing, have initiated layoffs.

It is worth noting that the Eurozone's unemployment rate has made significant progress over the years. It has nearly halved since reaching its peak at 12% in 2013 during the sovereign debt crisis. Although it briefly rose in 2020 due to pandemic-induced lockdowns, furlough schemes helped cushion the impact, and the jobless rate has continued to decline despite a slowdown in economic activity over the past year.

This year, the Eurozone's growth has stagnated, largely due to high inflation, the ECB's rapid interest rate hikes, and the global economic slowdown. The bloc's GDP contracted by 0.1% in the third quarter compared to the previous quarter.

Data shows that the share of businesses reporting labor shortages as a constraint on production has fallen across all sectors. Additionally, the hiring intentions of companies have fallen below long-term averages in certain sectors. Some companies,

grappling with declining demand and losing hope of improvement shortly, have begun to implement job cuts. Notably, German steel distributor Klöckner recently announced plans to cut approximately 300 jobs, equivalent to 10% of its European trading business staff.

Bradley Saunders, an economist at Capital Economics, anticipates a slowdown in wage growth in the coming quarters. He points to a decrease in Europe's vacancy rate and a declining trend in job postings on platforms like Indeed in countries such as Germany and France.

While the ECB expects pay per Eurozone employee to rise by 5.3% this year, well above the 2% inflation target, it also anticipates a slowdown in wage growth starting in the second half of this year, with a projection of 3.8% in 2025. These developments reflect the complex interplay of economic forces shaping the Eurozone's labor market and economic prospects.

Tips for Successful Okra Cultivation:

Growing Yambo with Green Thumbs

OKRA, known as “yambo” in some regions, is a beloved vegetable with a rich culinary tradition. Cultivating this nutritious and versatile plant can be a rewarding experience, and here are some key tips for successful yambo cultivation.

Location and Sunlight: Okra thrives in warm, sunny climates, making it essential to select the right location. Ensure your chosen spot receives a minimum of 6-8 hours of direct sunlight each day. This abundant sunlight is crucial for the plant’s growth and fruit production.

Soil Preparation: Preparing the soil is fundamental to yambo cultivation. Enhance your soil’s fertility by amending it with organic matter such as compost or well-rotted manure. This not only provides essential nutrients but also improves water retention in the soil, which is particularly advantageous during drier periods.

Planting Okra: You can grow okra from either seeds or transplants. For seeds, plant them directly in your garden once the soil temperature reaches around 70°F (21°C). Allow 12-18 inches of space between each plant in rows spaced

3-4 feet apart, providing adequate room for growth.

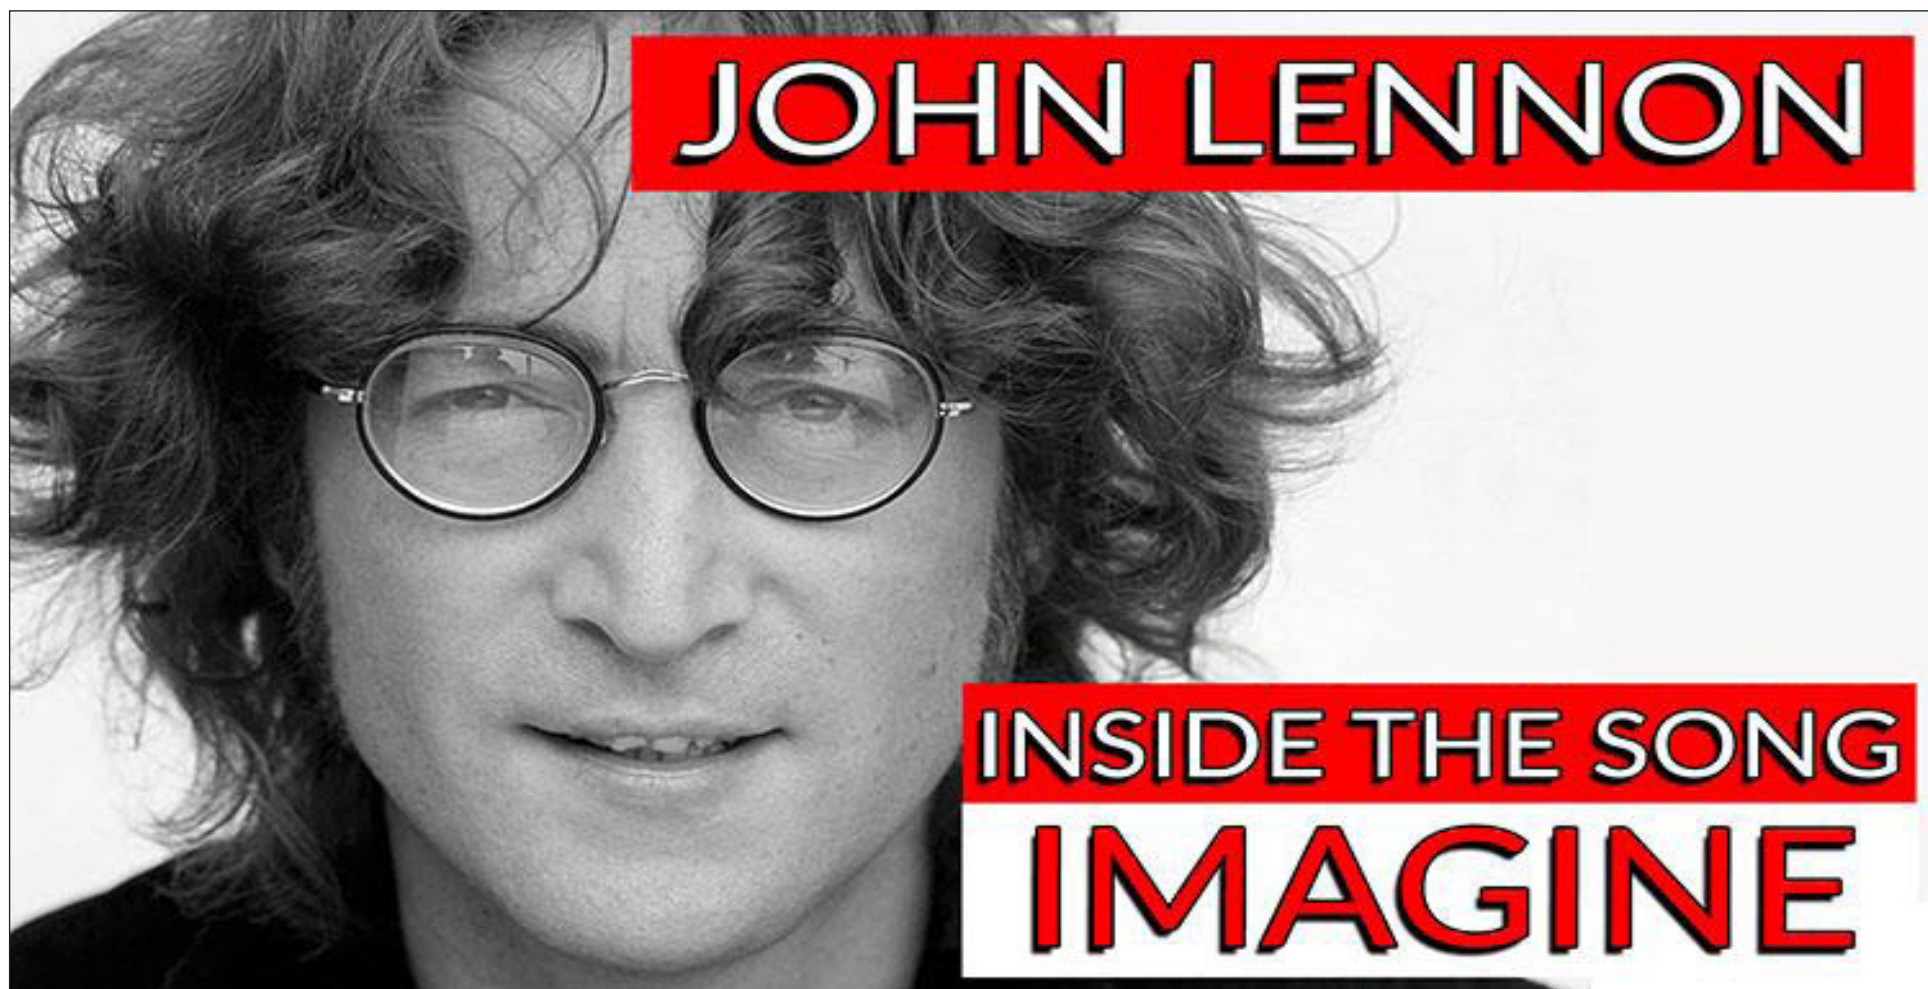

Watering and Care: Consistent moisture is vital for okra plants, especially in hot and arid conditions. Water deeply when the soil’s top inch becomes dry. Avoid overwatering to prevent root rot, which can harm your plants. Applying a layer of mulch around the plants can help maintain soil moisture, suppress weed growth, and regulate soil temperature.

Maintenance and Pests: Regularly inspect your yambo plants for common pests like aphids, stink bugs, or spider mites. Utilize appropriate natural or chemical remedies as necessary. To prevent fungal diseases, refrain from overhead watering, as it keeps the foliage dry. Crop rotation can also contribute to disease prevention.

The Importance of Equality in Decision-Making within Relationships

ANY healthy and thriving relationship, equality and mutual respect are fundamental pillars that form the foundation of a strong bond between partners. This includes the way decisions are made within the relationship, where both individuals have an equal say and the opportunity to express their opinions.

Requiring one partner to have the final say in every matter can lead to an unhealthy dynamic within the relationship.

Communication is Key

Effective communication is the cornerstone of a successful relationship. When one partner continuously demands the final word in decision-making, it can hinder open and honest communication. Each partner should feel safe and encouraged to share their thoughts, concerns, and preferences. In this environment, decisions can be reached through meaningful dialogue, rather than through one-sided imposition.

Equality and Respect

Equality and respect go hand in hand. In a healthy relationship, both partners should be considered equals, with each person's opinions and feelings valued. Requiring one partner to make all the final decisions can undermine this equality. It's essential to recognize that respect means honoring your partner's autonomy and giving their opinions the weight they deserve.

Control Issues

The need for one partner to have the last say in everything may point to deeper control issues within the relationship. Healthy partnerships are built on trust and collaboration, not one-sided control. If you find yourself or your partner always seeking to maintain control, it's vital to examine the reasons behind this behavior and consider seeking professional help.

Impact on the Other Partner

Consider how this dynamic affects your partner. If your partner often feels unheard, disrespected, or that their opinions are dismissed, it can lead to feelings of frustration, resentment, and emotional distress. Over time, this can erode the bond between you and create barriers to effective communication and understanding.

Mutual Decision-Making

A thriving relationship is characterized by mutual decision-making. Both partners should feel that their input matters and that their preferences are taken into account when making choices. This creates a sense of partnership and shared responsibility, enhancing the quality of the relationship.

While it's not a "sickness," per se, requiring your partner to always have the final say can signify an unhealthy dynamic within your relationship. Such dynamics can hinder open communication, equality, and respect. Addressing these issues is crucial for building a thriving, balanced, and mutually respectful partnership.

“The Son of Man” by René Magritte: An Iconic Enigma

ART has a unique way of captivating our imagination, challenging our perceptions, and leaving a lasting impact on our understanding of the world. René Magritte’s masterpiece, “The Son of Man,” is a quintessential example of such art. This iconic surrealist painting, created in 1964, has puzzled and intrigued art enthusiasts for decades.

Magritte, a Belgian surrealist artist, was known for his ability to blend the ordinary with the extraordinary, creating dream-like scenarios that questioned the nature of reality. “The Son of Man” is no exception. At first glance, the painting appears deceptively simple – a man in a bowler hat, standing in front of a low wall, with a lush landscape as the backdrop. Yet, it’s the enigmatic details that make this work a masterpiece.

The defining element of the painting is the hovering green apple obscuring the face of the bowler-hatted man. This seemingly mundane fruit takes on a surreal significance, raising a multitude of questions. Why is the apple there? What does it represent? And why does it obscure the man’s face?

One interpretation is that the apple serves as a symbol of hidden truth or the unknown. By concealing the man’s face, Magritte invites viewers to ponder the enigma of identity. The man becomes an archetype, representing everyman, and the apple’s presence evokes the idea that our true selves are often obscured or hidden from the world. The bowler hat, a symbol of conformity and societal norms, further underscores this theme.

Magritte’s meticulous attention to detail is evident in the crisp, realistic rendering of the scene. The juxtaposition of the ordinary and the surreal creates a sense of cognitive dissonance, encouraging viewers to question their own perceptions of reality. The contrast between the precise depiction of the man and the inexplicable presence of the apple challenges our understanding of what is possible.

“The Son of Man” continues to be a subject of fascination and interpretation. It has been referenced in various forms of popular culture and has left an indelible mark on the world of art. Magritte’s ability to provoke thought and evoke emotions through his work is a testament to his mastery as a surrealist artist.

René Magritte’s “The Son of Man” is a masterpiece that defies easy categorization. It challenges our perceptions, invites us to contemplate the hidden aspects of our identity, and blurs the line between reality and imagination.

This iconic painting remains a testament to the enduring power of art to captivate, inspire, and provoke thought. Whether you view it as an enigma or an exploration of the self, “The Son of Man” continues to be a symbol of artistic brilliance.
